## Cover all angles

Talk about luxury! **The Silk Salon Treatment** from **5 Star Formulators**

is said to address the causes of aging skin from every angle, and at every skin layer to prevent and treat signs of aging. 5 Star Formulators says its silk treatment strengthens the connective tissue to increase the formation of collagen, improve microcirculation, and build the volume of native collagen, all without causing redness. For more information, call 1-(888) 200-3977 or visit [www.5StarFormulators.com](http://www.5StarFormulators.com).

## Be a 'pore-star'

Great skin means tight pores. **Tozzi** says its **PoreStar Let's Face It Mint Clay Mask** is a "taskmaster" that cleans and tightens pores while it absorbs excess oil. Tozzi says the mask, designed for oily skin with large pores, should be applied in a thin layer over the cleansed and toned face and neck, avoiding eye and upper lip areas. For more information, call 1-(888) 517-8600 or visit [www.tozzi.biz](http://www.tozzi.biz).

## Skin-saving serum

Serums are important in skin care regimens. **Sircuit Cosmeceuticals** says its **Sircuit Weapon** is a serum designed to put a concentrated amount of vitamin C back into the skin to increase collagen and fend off wrinkles. Circuit Weapon contains ingredients such as witch hazel extract, an astringent that increases circulation for a healthier glow, and black currant oil to repair skin and provide antioxidants. For more, call (323) 661-4544 or visit [www.sircuitskin.com](http://www.sircuitskin.com).

## Italian skin care secret

Beautiful skin means protected skin. **Verattiva** says it can help clients achieve a gorgeous, glowing complexion with its **Verattiva Sun Care** line. The line features key ingredients such as aloe vera juice, probiofactor, wheat micro-peptides, and free-radical fighting carboxymethyl beta glucan. Verattiva says the presence of probiotics guarantees better elasticity, hydration and resistance against external elements. For more information, visit [www.verattiva.com](http://www.verattiva.com).
